3M

Increased visibility helps improve safety

Drivers rely on what they can see. Vehicles with reflective conspicuity markings provide better visual information to drivers for faster detection and more accurate decision-making. 3M vehicle conspicuity markings are now available in a strong rigid construction product for smooth and even surfaces. The full cube technology of 3M™ Diamond Grade™ DG3 with efficient optics will give bright markings. High quality materials provide a durable film to withstand harsh traffic environment, and are backed by 3M's superior technical support and customer service. They are easy to apply and come with aggressive, pressure sensitive adhesive that stands up to the rigors of the road.

Certification	MS 828:2011 Road Vehicles and Side Marking-Specification (Second Revision)
Warranty	12 months of retro reflectivity performance
Security	Hologram label with running serial number
